Maharagama, Sri Lanka [linkedin.com/in/sanjalee-dassanayake](https://www.linkedin.com/in/sanjalee-dassanayake)

Profile

Computer Science and IT & Management undergraduate interested in Business Analysis and Quality Assurance. Skilled in problem-solving, data and process modelling, full-stack development, and stakeholder communication, with strong teamwork and resilience developed through university projects and sports.

Education

University of Moratuwa B.Sc. (Hons) in Information Technology & Management	2024 Present
Informatics Institute of Technology B.Sc. (Hons) in Computer Science	2023 Present
Visakha Vidyalaya, Colombo GCE A/L (Commerce Stream): 3A Z-score 1.95, Island Rank 754	2021 2023
Musaeus College, Colombo GCE O/L: 9A	2009 2020

Projects

InterLink AI-Enhanced Recruitment Management System (React.js, Spring Boot, PostgreSQL, Supabase, OpenAI)

- Developed a multi-tenant recruitment platform with AI-powered CV shortlisting, interview management, RBAC, and an AI chat assistant.
- Implemented authentication/authorization, Gmail SMTP, interview workflows, and automation testing.

RaceTrack Circuit (IoT, Embedded Systems, Web Technologies)

- Developed an IoT RC car racing system with sensors, motors, LEDs, and buzzers for automated race control and feedback.
- Built a live web interface for lap timing, collision alerts, and performance tracking.

Blog Application (HTML5, CSS3, JavaScript, PHP, MySQL)

- Developed a full-stack blogging application with user authentication, authorization, CRUD operations, and MySQL database integration.

Property Listing Web Application (HTML5, CSS3, React.js)

- Designed and developed a responsive web application for browsing and listing properties.
- Built reusable React components for property cards, search, and filtering.

Health & Wellbeing Platform (HTML5, CSS3, JavaScript)

- Developed a web-based platform promoting good health and wellbeing.
- Implemented interactive client-side features with vanilla JavaScript.

Plane Management System (Java)

- Built a seat reservation and flight management system using object-oriented design.
- Implemented file handling for persistent storage, together with input validation and exception handling.

Student Sorting & Performance System (Python)

- Developed a system that sorts and groups students based on test performance.
- Visualised outcomes using histograms and enforced validation logic on input data.

IT Skills

Programming: Python, Java, C, SQL

Web Development: HTML, CSS, JavaScript, JavaFX, React, Spring Boot

Database Management: MySQL, PostgreSQL, database design

Version Control: Git, GitHub

Project Management Tools: Jira, ClickUp

Office & Productivity: Microsoft Word, Excel, PowerPoint

Core Competencies

- Project Management & Time Management
- Teamwork & Leadership
- Effective Communication & Public Relations
- Critical Thinking & Problem Solving

Languages

Sinhala (Native) English (Fluent)

Positions of Responsibility
